KHALED AL-BAKOUR

IT SUPPORT SPECIALIST | HARDWARE & TECHNICAL SUPPORT

Syria | Open to relocation | WhatsApp: +963 958 687 748 | Email: khaled.albakour.geo@gmail.com

PROFESSIONAL PROFILE

Practical IT Support Specialist with approximately six years of hands-on experience running a computer and laptop repair business, supporting and repairing 1,000+ devices. Strong practical background in hardware diagnostics, Windows 10/11 installation and troubleshooting, component replacement, software setup, LAN/Wi-Fi troubleshooting and remote support using AnyDesk and TeamViewer. Experienced in dealing directly with customers, diagnosing problems under time pressure and completing repairs independently. English level: B2. Based in Syria and seeking an employer-supported opportunity in Romania or Bulgaria.

CORE IT SKILLS

- Hardware diagnostics & repair • Laptop/desktop troubleshooting • PC assembly and component replacement
- Windows 10/11 installation, configuration and troubleshooting • Drivers and software installation
- LAN/Wi-Fi troubleshooting • Basic TCP/IP and network troubleshooting
- Remote support: AnyDesk / TeamViewer • Microsoft Word / Excel / PowerPoint
- Customer technical support • Device diagnosis • Asset/device handling • Practical problem solving
- Basic programming and web development • AI-assisted website development workflows

PROFESSIONAL EXPERIENCE

IT Support & Computer Repair — Al-Bakkour Technology & Computer, Syria | 2019–2025

- Ran day-to-day computer and laptop repair operations, including customer intake, diagnosis, repair and testing.
- Supported and repaired 1,000+ laptops and computers across hardware and software issues.
- Diagnosed failed components and performed practical replacement/upgrade work involving RAM, SSDs and other PC components.
- Installed and configured Windows 10/11, drivers and common software applications.
- Troubleshot LAN/Wi-Fi connectivity and common workstation/network access problems.
- Provided remote technical assistance using AnyDesk and TeamViewer when on-site access was not practical.
- Communicated directly with customers, explained technical problems and recommended practical repair or replacement options.
- Managed devices, parts and service workflow independently as a small-business operator.

ADDITIONAL TECHNICAL EXPERIENCE

Web & Digital Project Development — Freelance / Independent Projects | 2024–Present

- Developed and iterated websites and web application concepts using HTML, CSS and JavaScript with AI-assisted development workflows.
- Built practical projects including KM COMPANY and a dental website project, handling design, iteration and technical implementation.
- Basic programming knowledge with continued self-directed learning in software and web development.

PHOTOGRAPHY & DIGITAL MEDIA EXPERIENCE

Photography Studio / Digital Imaging | Approx. 5 years

- Product photography and image preparation for commercial use.
- Strong practical Photoshop experience, developed since 2013, including image editing and production workflows.

EDUCATION & PROFESSIONAL DEVELOPMENT

- Syrian Secondary Scientific Certificate — 2011
- EF SET English Certificate — B2 level
- Self-directed practical learning in IT support, Windows troubleshooting, hardware, networking basics, web development and software tools.
